The cover features a central white text box with a black border, set against a background of a Native American camp. The background is divided into several panels: a top panel with birds, a left panel with a tent and figures, a right panel with a tall tree, a bottom-left panel with a camp scene, a bottom-center panel with a swastika on a drum, and a bottom-right panel with a Native American man in profile. The text is centered in the white box.

*We hail thee, Alma Mater, dear,
As now we sing thy praise,
O let thy walls and storied halls
Resound with endless praise.*

CHORUS:

*We love thy sons so noble,
Thy daughters fair and true,
We love thee ever, old E. C.,
And thy colors Gray and Blue.*

*The strong and fair alike do share
The labours of thy hand;
Together they proclaim alway,
Thy glory through the land.*

*As long as breezes 'round thee blow,
And countless ages roll,
May heaven's blessing on thee rest,
While we thy name extol.*

THE PRESIDENT'S ETONIAN HOMILY

MR. HOWARD W. ODUM delivered an address at his Alma Mater, Emory University, in the spring of 1924 and gave to his audience advice that well might have been given to all the youth of America. The following statements embody part of his message:

"We do not know enough."

"We do not think enough."

"We do not read enough."

"We do not write enough."

"We talk too much."

Since it is truth alone that sets us free, there must be a greater emphasis placed upon investigation, experimentation, and research in various channels. Habitually to press on in old paths is the death knell of progress. Where there is no growth in vision, no new interpretation of truth, civilization harks back to barbarism. Nor is it the cock-sure type of individual who adds to the sum total of knowledge, but the humble, open-minded student.

Thinking is one of the most difficult tasks in which man engages, but it is just this kind of exercise which makes practical men. Bernadine Freeman in an article, "Is This Education?" has the modern student confess:

"I can solve a quadratic equation, but I cannot keep my bank balance straight.

"I can read Goethe's 'Faust' in the original, but I cannot ask for a piece of bread in German.

"I can name the kings of England since the War of the Roses, but I do not know the qualifications of the candidates in the coming election.

"I know the economic theories of Malthus and Adam Smith, but I cannot live within my income.

"I can recognize the 'leit-motif' of a Wagnerian opera, but I cannot sing a tune.

"I can explain the principle of hydraulics, but I cannot repair a leak in the kitchen faucet.

"I can read the plays of Moliere in the original, but I cannot order a meal in French.

"I have studied the psychology of James and Titchener, but I cannot control my own temper.

"I can conjugate Latin verbs, but I cannot write legibly."

These weightier things left undone after all determine the worth of the individual to society. What do the scintillations of intellect profit a man when he has not really thought enough on how to live? The theory of life must become incarnate.

Because we do not read enough we have an impoverished supply of facts upon which to base the decisions of our lives. What narrow worlds we inhabit because we do not acquaint ourselves with the thoughts of the world's greatest men and women! No one can read the messages contained in a masterpiece of literature and be the same person afterwards. Every one should read some of the outstanding books in fields other than that of his major interest. This would give him breadth of perspective and prevent biased and distorted views on the practical problems of life.

Then, too, how much of value has been missed by the world because many of our best thinkers have failed to set forth the fruits of their labors in clear, concise language. An exactness is developed in an individual by frequently engaging in writing. Glenn Frank significantly says, "We must breed more scholars and writers who combine the burrowing qualities of the mole with the singing qualities of the lark, men who are masters alike of the science of research and the art of expression." There is a mass of writing done by those with juvenile brains; but we must encourage the lion thinkers to give more of their discoveries to a hungry world.

May you remember as you leave your Alma Mater that the greatest danger is in talking too much about what ought to be done instead of actually doing something to make the world better. Put your life on the side of those striving to consummate a constructive program for humanity. Dare to do the right at any cost; never flinch when duty calls. To see you thus acquit yourself will be my highest joy.

PRESIDENT R. W. SCHLOSSER.

THE EDUCATED MAN

RECENTLY a group of scientists had a meeting at which time they made a list of the things which in their minds count for most in the life and work of a scientific man.

The first of this list is education. The narrow definition of the term is not implied, rather the broadest possible meaning of the word. This kind of an education is not "given" to students, it is the product or an attitude, a wisdom, which results from an intelligent corporation of purpose, factual knowledge, and character. To be educated means that ignorance and provincialism have given way to thorough training and a universal outlook; that crudities are replaced by refinement and that discipline is substituted for dissipation.

The second essential selected was that of health. No mind can do its best in an unsound body. Many a great man lived in an afflicted body, but the world would undoubtedly be richer had the same man enjoyed health. Pasteur laid the foundation of bacteriology and vaccination against small pox while confined to his bed by paralysis. Voltaire said, "The fate of a nation has often depended on the good or bad digestion of a prime minister." How true! For efficiency, sweetness, joy of work, we need health.

As a third, income was selected. Every man who is willing to contribute his honest share of effort has a right to a living wage. Anyone who has the ability, ambition, and ingenuity to do a thing better than the average has a right to exact more than the minimum wage. No scientist, engineer, doctor, preacher, teacher, or mother can do his or her best with the wolf's shadow on the door. All he wants is freedom from worry to make ends meet. This is all that any truly educated man wants.

Social responsibility was the fourth essential selected. Regardless of the amount of technical training and skill, or health, or how large an income, no educated man lives unto himself. Elizabethtown College aims to train her young men and women not to live complacently "in a house by the side of the road," but to get out into the procession and help guide the onward march of civilization in paths of progress.

Fifth, and most important of all, these scientific men placed spirituality. Wisdom, health, wealth, and social service are transient. They last but for life. We do not think of death, the closing even of our activity on this planet, as the end of it all. It is but the beginning, the birth into a new world. Indeed, the consistently trained man will not neglect, in his thirst for truth and facts, that corner of his mental life where he may reach beyond the farthest horizon of facts through the media of faith and hope.

The educated man believes in sound training, undergirded with a sound body and an income commensurate with his creative genius. His time and his energy are not his own, but the entire human race shall enjoy the labor of his hand. He is ever a man of faith, hope, reverence, and moral and intellectual integrity. This is the truly educated man.

SENIOR CLASS HISTORY

SEPTEMBER 5, 1928. The good ship E-town '32 was launched on the intellectual sea, with Pilot Baugher at the helm. Captain Henry Blough, with Earl Wenger, Floy Schlosser and Clair Hielman, as shipmates, took charge for first sail. This sturdy group of sailors found little difficulty in adjusting themselves to their surroundings. After being cast about on the rough seas, however, we find them eager to anchor in Port Freshman.

After spending a few months on land we find the group ready to start on the second year of their voyage. By this time they were fully acclimated to the new routine. About the middle of the year, when the ship was well out to sea, the night seemed quite calm yet the ship seemed to fairly rock; screams and shouts gave evidence of trouble, but when signaled by the President, the reply was only a roller skating party. There were a few more interesting events, including the Carnegie test, which almost made the entire group sea sick.

When the ship left Port Sophomore we were disappointed to see a large majority of the group willing to remain on land. Some secured positions, others sought another ship. A few of the vacancies were filled by new members with a diminished crew. The work became rather heavy, but sufficient time was found for recreation in the form of a taffy pull. We also entertained the Crew of E-town '31 in a royal manner. The crew was then delightfully entertained by their pilot, Dean Baugher. Every one on board was busy working on a souvenir, "The ETONIAN," which they distributed in Port Junior, the last port of call before returning home.

September, 1931. The crew with the exception of our shipmates, Caleb Bucher, Shonk, and Smoker, and with the addition of Davis, Deneen, Garber, Suter, Scanlin, and Moseman set out on the final leg of their eventful voyage. This year was characterized by the practical application of the knowledge acquired. The year was made eventful with the staging of Shakespeare's "Othello." After being cast about on the rough seas for almost four years, we sighted an island where we stopped to refuel and renew our energy. After spending the week-end in this delightful spot, Mount Gretna, we took up anchor and resumed our voyage, with a desire to enter the home harbor with full sail.

Out of the present into the past
Time is ever fleeting,
Leaving to us only memories
Of the hours we spent together.

Our College life will soon be past,
But the memories will ever linger;
It's not what we have learned from books that stays,
But the things we have shared with others.

JUNIOR CLASS HISTORY

FROM the four corners of the earth they came to seek a bit of that intangible wealth which folks call education. North, South, East and West yielded, for E-town, the very best of its youth. They appeared from many counties, and several states.

The authorities were not disappointed in this new group of students who called themselves "the class of '33." Scholastically, they presented a challenge. In activities, they offered keen competition for all the experienced students. In both debating and athletics, they proved an asset to the school and to the class. Even socially, especially after the first semester, their adventures demanded the recognition of Sophomores, Juniors and Seniors.

The year 1929-30 passed quickly. To climax the general good feeling and fellowship among the class several socials were planned. The first, a kids' party, was held in the gymnasium, without being successfully interrupted; the second—a roller-skating party at Mount Gretna. One year was gone!

Upon returning the following fall it became known that few had departed to return no more. This, however, had no effect on the class of '33, for it still had capable leaders, and a group of stalwart supporters. For nine months more they held the "Ship of Thirty-Three" on an even keel. The big feature of the year—socially speaking, was the class banquet at Weber's Inn. The program, rendered on the order of a radio broadcast, was the novel product of several clever, inventive Sophomores.

This past year has seen the majority of the students placed in active service. They are now holding up the high traditional standards of their Alma Mater and their class.

At present the class consists of eighteen members. With firm determination they decided to publish the traditional College Annual, in spite of existing financial conditions. Several worthwhile innovations have been made. They speak for themselves.

In socials this year the Juniors have again stepped beyond the bounds of tradition. Last fall they were entertained by a former classmate, Ruth Landis, at a Barn Party. This past semester the class of '33 promoted the first formal affair in the history of Elizabethtown College. Three cheers!

EARL BAUGHER

Hershey, Pa.

"FOR he's a jolly good fellow, which nobody can deny." This is an adequate introduction to Baugher, Junior Class President.

Earl represents a modest but exceptional ability. Evidence of that statement may be found in his quality of leadership, for we find him vice-president in his freshman year and president in his sophomore and junior years. He may be said to be a sincere pilot in the face of rather severe storms.

Earnestness best relates his athletic ability. In those athletic activities of which he is a part he always gives the last ounce of energy for the glory of his team.

And then, Baugher is not what one would call a one-college man, for he is apparently interested in the welfare of our sister school at Huntingdon and the State Institution located at West Chester. There are rumors that frequent trips to both of these places keep alive the interest.

Baugher's main field of concentration is chemistry and he spends many happy hours in the chemistry laboratory. One of his greatest joys seems to be the making up of "unknowns" for the second-year students. It is reported that several new compounds have been developed as a result of his mixtures.

In short, Earl is the type of whom success in life is expected and it is felt that the expectants will not be disappointed.

Activities: Orchestra, '32; Men's Student Council, '31; Vice-President of Class, '30, President, '31, '32; Science Club, '31; Associate Editor of *ETONIAN*; Basketball, '31; Class Athletics, '30, '31, '32.

VERE BISHOP

Elizabethtown, Pa.

IN "BISH" are to be found characteristics which of themselves predict success in his field. Just what that field is we all have our opinions, which vary from chemistry to photography to the science of femininity. So we all agree that he is purely scientific!

Vere's outstanding characteristic is his being conscientious. This is based entirely on fact and not theory. He is a typical example of the "slow but sure" type. We seldom see him in a rush to get to any particular place, (disregarding trips to Millersville and Westchester), but he is never seen wasting time. He seems to have a peculiar affinity for the College Library. The evening hours of that "sanctuary" seem to have an attraction for him. The important point of this is not the fact, but the motive. What is the motive? Of course, it must be books, for that is about all we find in our library.

Then "Bish" is quite an accomplished photographer. He seems to have mastered that art and indeed is a big help to "Simon." The "ETONIAN" owes some of its best pictures to "Bish's" work.

Surveying the one in question, it must be agreed that he is quite a man. His development has been well-rounded and he has, to a reputed degree, become a fine example of the four-fold life.

Activities: ETONIAN Staff, '32; Secretary, Student Council, '32.

HARRY GERLACH

Lancaster, Pa.

TO INTRODUCE "Gerlach" one need only say that he is a Junior, tried and true. He started out with the class on that memorable day in the fall of 1929 and has developed and grown with them since. Being a day-student did not seem to prevent Harry from becoming quite active in numerous activities.

Harry is one of the big assets of the Junior Class both in stature and achievement. As assistant advertising manager of the year book he has contributed no small portion to its financial success. As Vice-President of the Junior Class he has been able to demonstrate his executive ability.

Still another field claims him, however, and that is Basketball. During the past season he has held the center position on our Blue and Gray squad.

In the field of dramatics he has taken a keen interest and is one of the charter members of the Sock and Buskin. As a member of this Club he has labored for its success by his earnest cooperation and participation in its various presentations. Harry recently played the part of George Washington—but ask him to tell you about it sometime.

In whatever field you work, Harry, may your tallness be an indication of your success! Activities: Varsity Basketball, '32; Science Club, '31, '32, Secretary-Treasurer, '32; Sock and Buskin, '31, '32; Vice-President of Class, '32; Chemistry Lab. Assistant, '32; *College Times* Staff, '32; *ETONIAN* Staff, '32; Class Basketball, '30; Junior Varsity Basketball, '31.

AMMON B. GIBBLE

Myerstown, Pa.

"SEEKST thou a man diligent in his business. He shall stand before kings and not before mean men."

That's our prediction for Gibble. Several years ago he decided to pay E-town a visit. As a result we were privileged to have him on the hill for two winters. Then the period of depression arrived and he thought it wise to supplement education with practical experience. This year he has returned to join our class. Already his schoolmates have labeled him as an asset.

His work, whether in class, on the campus, or out of school, is of a quality that cannot but demand recognition. He is an excellent salesman—especially for *ETONIAN* advertisements and can openers! As a thinker on practical issues, he is outstanding. His capacity for work is almost limitless, judging from all the activities he carries.

There is another side to Ammon's nature, too, and that is his "Chevy" roadster. That car has seen more good times and yet more hard times than 99 per cent of all the "Model T's" ever made. Although it responds to other's commands, it obeys most readily the "master's touch," for it is not a case of the car making the man popular, but the man making the car popular.

Here is a well-balanced combination of seriousness and humor, deliberation and action, thought and sport.

Activities: Class Athletics, '29, '30; Student Council, '30; Oratorical Contest, '30; Treasurer, Y. M. C. A., '32; Candles, '29, '30, '32, Secretary-Treasurer, '32; *College Times* Staff, '32; *ETONIAN* Staff, '32; Sock and Buskin, '32.

KENNETH GROSH

Mt. Joy, Pa.

SUFFICIENT proof that "all good things do not come in small packages" is found in this man Grosh, who came to us from Elizabethtown High School. Since his high school days, he has won a new friend—constant, helpful, indeed inseparable—and that's his red coupe. Each day it brings him to college from the metropolis of Milton Grove.

"Ken's" motto seems to be, "a well-rounded man should live a well-rounded life." Debating, dramatics, *College Times*, news reporter for the College, are all a part of him. He has also shown several business tendencies, in that he has proved himself to be an able salesman of books.

This year the Juniors showed their confidence in his ability by electing him Editor-in-Chief of the *ETONIAN*. Here he has worked unceasingly and he deserves all the praise given him. As a reward for his hard work and successful achievements he was elected a member of the Candles.

We know that after graduation, be it as a History Professor or a journalist, Grosh will succeed!

Activities: *College Times* Staff, '31; Oratorical Contest, '31; Sock and Buskin, '31, '32; Science Club, '31, '32; Editor-in-Chief of *ETONIAN*, '32; Debating, '31; Student Council, '31, Secretary, '32; Candles, '32; News Reporter for College, '32.

CLAUDE GROVE

Manchester, Ind.

THIS quiet, dignified, and refined gentleman hails from the Hoosier State. Claude entered the class of '33 last fall. During the two previous years, he was a student at Manchester College, and also took some work at Dodge School, Valparaso, Ind.

Teaching commercial subjects is Grove's big aim and ambition at present. He can usually be found down in the typing room with his favorite "Royal."

Although Grove did not work with the varsity basketball team on the floor, he rendered many lusty, breath-taking yells from the bleachers. Every home game brought this "Hoosier schoolboy," wearing his newly acquired black felt hat, to the gym with plenty of "vim, vigor, and vitality."

And, one mustn't overlook Claude's automobile, nor his friend Paul Butterbaugh; these two boys come from the same state and, from appearances, believe that "in unity there is strength."

Now, the next usual thing to tell about a young man is the consideration he gives the opposite sex. With no visible proof, one must believe that feathered chickens are the only ones of the fair sex to receive Mr. Grove's attention, and, reports come that back home he has figured in a big way in the poultry business.

Elizabethtown College has claimed this young man for his Junior year, and hopes that 1933 will find his name among its graduates.

Activities: Athletic Editor of *ETONIAN*; Commercial Club, '32; Class Athletics, '32.

HELEN E. HEISEY

Sellersville, Pa.

HELEN is one of our quiet but happy girls. Wherever you meet her she greets you with a smile. Unless personally acquainted with "Hies," one would think her rather quiet and calm, but when you learn to know her you will never regret her sincere and jolly friendship. Helen is always boosting or cheering someone on with a kindly remark or deed. Her witticisms cause continual outbursts of laughter among those who claim her as a friend.

Helen is a day student, but, nevertheless, we find her always ready to give lots of effort and time to any activity on the Hill. A ready response follows every call. We learn that she is equally as beneficial in the wide range of friends outside her school life. Her friends are many and of both sexes; at any rate, we find her always on the *Mark*.

It is in the field of foreign languages in which Helen's interests are centered. She is especially interested in French and Spanish, and is an active member of Le Cercle Francais. Her musical ability and her art have distinguished her.

We wish for you, Helen, much success and happiness in the teaching profession.

Activities: Art Editor of *ETONIAN*; Le Cercle Francais, '30, '31, '32.

LEWIS HEISEY

Elizabethtown, Pa.

AFTER having finished his high school education in town, "Skeeter" came out to the Hill to further his education and incidentally catch up on some sleep.

If you know "Skeeter" you'll know his saxophone. He takes his part in the orchestra and often gives enjoyable selections in chapel. He frequently entertains the folks in the library while he is practicing above. This, of course, arouses the librarian's sense of humor, which often leads to trouble.

When you hear a slow, uneven step in the hall you know it's "Skeeter" hunting mischief. He's always looking on the optimistic side of life; of course, why shouldn't he? He eats lunch at Aunt Sally's and somehow, he always seems "cheerful" for the rest of that day. We wonder why?

"You should have seen our butler! He was perfect." This is just one of the many parts that have been interpreted by "Skeeter" in various plays. He also shines as a carpenter and painter, as the scenes for "Let Us Be Gay" will testify.

"Skeeter" is majoring in science, but he will probably end up as an orchestra leader. Lead on, "Skeeter!"

Activities: Sock and Buskin, '31, '32; Science Club, '31, '32; Orchestra, '32; Basketball, '32; Class Athletics, '30, '31, '32; ETONIAN Staff.

EMMERT HERR

Elizabethtown, Pa.

LET us have wine, women, mirth, and laughter," says this brown-eyed blonde who not only races the DeSoto, but the hearts of the coeds. A roar of a motor! A glimpse of a blue coupe! Ah, Ha, "Jakie" Herr on his way to a 7.40 physics class. A shock of blonde curly hair, a come-hither look in his eyes, an infectious grin. Enough said; 'tis "Jakie."

This day student has, also, unusual ability in athletics. For three years he participated on college varsity teams. As a forward and center in basketball, he is valuable, while in the baseball season, he hovers on or about first base. Although he has not had opportunity to display his football ability for his college, the local vicinity has heard much of this young man in that field.

"Jakie" says science is his major, but invariably his interests lie elsewhere. However, this fellow does know science and hopes to teach it for a year or two. As a teacher he has an advantage, for he possesses an unusually pleasing personality.

To overlook Jake's musical ability would be unpardonable, for he displays much talent in music. For two years, he sang second baritone in the Quartet and Glee Club, and, when one hears the saxophone doing its best, instinct should tell that Jake Herr is around.

This past semester other activities lured "Jakie" from college campus. His classmates wish him success!

Activities: Baseball, '30, '31; Basketball, '30, '32; Chorus, '31, '32; Orchestra, '31, '32.

MARION HUMPHREY

Delmar, N. Y.

"WHAT this world needs is a good nickel pickle!" Ever heard that before? What a fitting introduction to our fair lady who came to us from New York. Marion, better known as "Slizzy-Baby," to her intimate friends, is a rather versatile individual. She likes all kinds of outdoor sports, especially cross-country hiking in snowstorms. Ever since her "Ship" came in she is, apparently, a firm believer in the idea that "a walk a day keeps one healthy and gay," for the sun never sets without Marion having taken a little stroll.

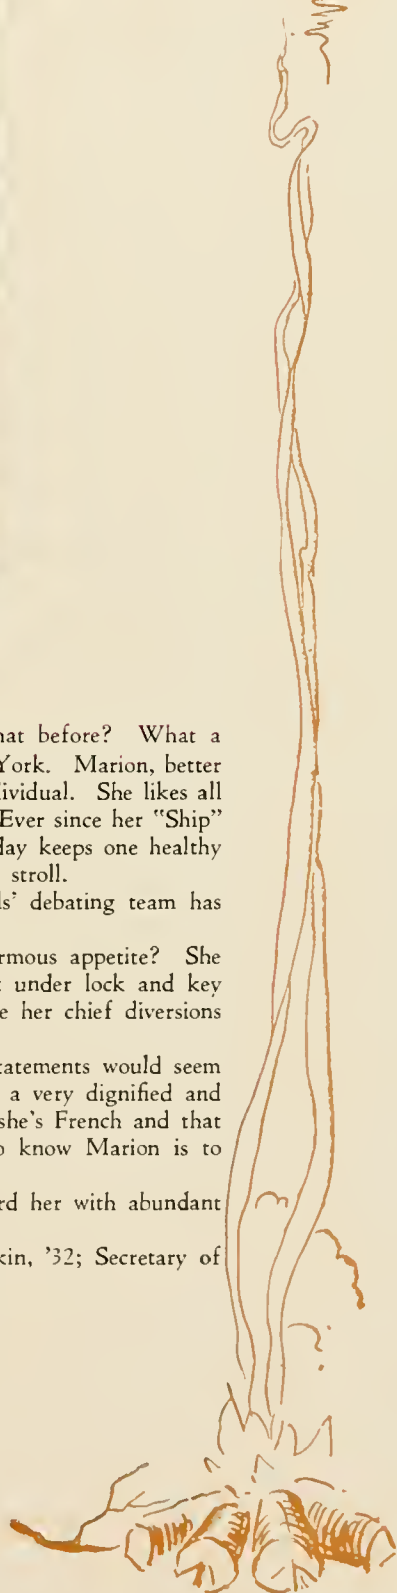

Her major interests are English and French. This year the girls' debating team has found in her a convincing debator. In dramatics, she's marvelous.

There are several things peculiar to Marion's own self. An enormous appetite? She certainly has, as her roommates can verify, for all food must be kept under lock and key when she's around. The "Harlem Strut" and the "Kansas Stride" are her chief diversions on the dorm—indeed they have brought her great fame!

Marion is the aristocratic member of our class. The foregoing statements would seem it were otherwise, but unless you know her, she is, in your estimation, a very dignified and reserved individual. This might best be explained by telling you that she's French and that she has all the aristocratic airs and culture of a French woman. To know Marion is to love her.

Her charming personality and her marvelous optimism shall reward her with abundant success.

Activities: Le Cercle Francais, '31, '32; Debating, '32; Sock and Buskin, '32; Secretary of Student Government, '32; Student Council, '31.

WILLIAM A. KEHM

York, Pa.

WILLIAM A. KEHM, alias Bill and "Sweet Willie," as better known to more intimate ones, came to Elizabethtown as a Sophomore, having spent his first year at Gettysburg.

Bill's diversified interests demand all his time. However, his chief interest appears to be in a feminine member of the Junior class who has just been adopted at the beginning of this school year. Not infrequently may he be seen strolling over the campus or in some other lover's abode with his favorite "flower."

Did Kehm ever tell you how beautiful York is? He delights in the fact that he lives only eighteen miles from this attractive city.

Kehm also is a fine athlete, and fleet-footed as a deer. Some day he will make Paavo Nurmis' record look like a snail's pace.

On the baseball squad he fills no less important position than that of shortstop. And "Boy" how he can steal bases on the pitcher! His further connection with athletics is assistant athletic manager.

Bill wants to be a coach; so here's best wishes for success!

Activities: Baseball, '31, '32; Assistant Athletic Manager, '32; Class Treasurer, '32; Science Club, '32.

LAVERNE LOVELASS

Milanville, Pa.

"Oh what may woman within her hide
Though angel on the outside."

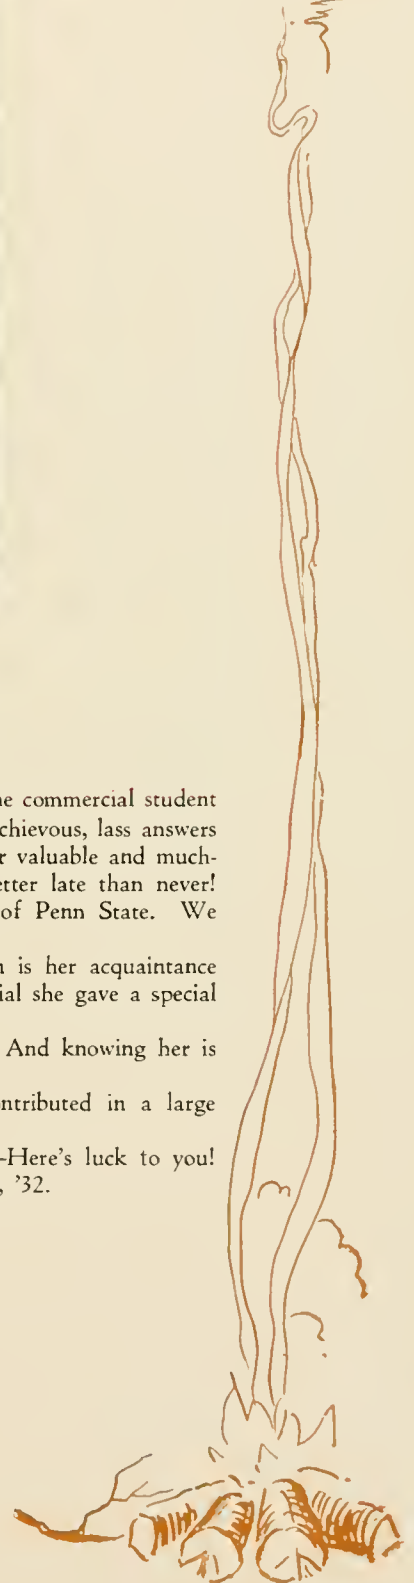

WHEN you hear the typical "Lovie" laugh you know it is our feminine commercial student coming with her mail. We wonder whether this quiet, though mischievous, lass answers those numerous letters in shorthand. This year the class almost lost our valuable and much-loved classmate, but the Hill proved irresistible—and here she is! Better late than never! Even now she deserts us at times for those week-ends in the vicinity of Penn State. We wonder—but ask the mailman, he carries the letters.

The thing LaVerne particularly associates with her life in E-town is her acquaintance with pretzels and potato chips. They say that during the week-end social she gave a special demonstration of her love for them.

She is one who, after you learn to know her, is never forgotten. And knowing her is knowing "Darl," her partner in secret conferences.

As typist for the *ETONIAN*, her efforts and cooperation have contributed in a large measure to its success. Ask her sometime about Grosh's writing.

We feel certain you will make good whatever you do. "Lovie"—Here's luck to you! Activities: Student Council, '32; Commercial Club, '32; *ETONIAN* Staff, '32.

AMMON B. MEYER

Lebanon, Pa.

THIS cheerful young man, who is much loved by all the members of his class, hails from the vicinity of Fredericksburg, Pennsylvania. His ambitions are of a dual nature, being that of teacher and preacher. He has also proved himself capable in business affairs and has been chosen as business manager of the "ETONIAN." In this activity, as in other tasks undertaken by Ammon, he has proved himself to be a hard and conscientious worker. Ammon has such a deep desire to help others and to do his duty in life, that he developed a peculiar habit of visiting a nearby school to relieve the teacher, either by conducting the class work or by entertaining the children. From all this we can only conclude that the keynote of his secret of success is,—a desire to serve!

Ammon receives the admiration of his class for his achievements scholastically and his ability in public speaking. He had splendid opportunities to develop this side of his nature in his student volunteer work.

Activities: Class Athletics, '30, '31; Class Treasurer, '31; Secretary-Treasurer Debating, '31; Science Club, '31, '32; *College Times* Staff, '31; Secretary Y. M. C. A., '32; Business Manager of *ETONIAN*; Candles, '32; Volunteers, '32; Laboratory Assistant, '32.

VIOLET MAE MORTON

York, Pa.

IT WAS a colorful autumn day, the campus was beautiful; the air was vibrating. Through the orchard, came two daring youths, hand in hand; they strolled through the fallen leaves. The world was perfect bliss for this couple and life was precious. To the reception room they came, for the seven-thirty bell was tolling. The small miss shook her dark bobbed hair, smiled with her winsome blue eyes and dashed upstairs. Who is this young lady? Oh, Violet Mae Morton. The young man? Needless to say, Bill Kehm of the college campus.

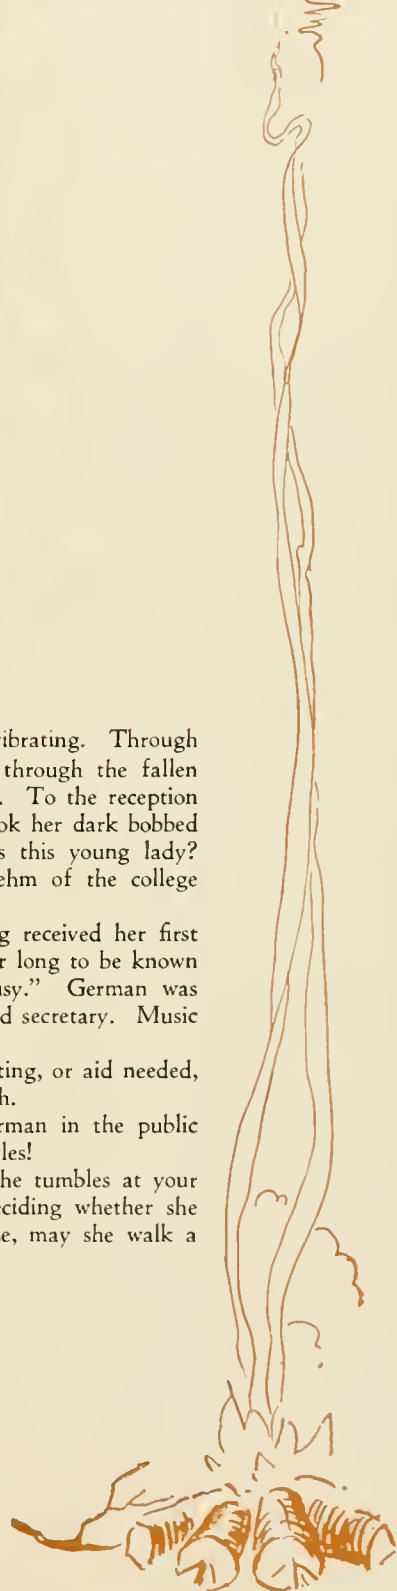

Miss Morton came to our campus this past fall as a junior, having received her first two years of co-education at Lebanon Valley College. It did not take her long to be known by both boys and girls. The name Violet changed to the label "Pansy." German was "Pansy's" major and when the German Club was organized she was elected secretary. Music likes "Pansy" and "Pansy" likes music.

As a ready worker, she excels; whenever there is any repairing, inventing, or aid needed, Violet comes in mighty handy, although she looks too "petite" to try much.

Violet Mae forecasts her future by saying that she will teach German in the public schools. Perhaps Bill won't agree, but let's let them fight their own battles!

If anyone should pass "Pansy" on the pavement, and like a flash, she tumbles at your feet, don't be flattered because it is known that "Pansy" has trouble deciding whether she will walk on her knees or on her feet. But whatever she decides to use, may she walk a long time!

Activities: German Club, '32; Student, Lebanon Valley College, '29, '30.

HOMER REBER
Mohrsville, Pa.

BESIDES being a disciple of Descartes, Reber is something of a philosopher in his own right. Where there is argument to be heard you will always find Reber. His amazing vocabulary enables him to use words of incomprehensible prolixity, well-calculated to awe his opponents into silence. We have not yet heard of any one who was convinced by his dialectics, but we are sure that the tonic of his criticism has forced many to clarify their thinking. Behind the good-natured chaffing and the pompous verbiage that are his delight, there is a depth of erudition and a keenness of speculation that gives him a lien to the term "scholar."

If you ever visit Reber's room you will likely catch him amusing a small "gold fish" which he takes thru a daily routine of gymnastics and calisthenics. He also makes himself known by entertaining the other students with a small harmonica. Reber, whatever you do, do right, and yours will be nothing but success.

Activities: Candles, '30, '31, '32; *College Times*, '31, '32; Men's Glee Club, '31; Class Athletics, '30, '31, '32; Science Club, '31, '32; Alumni Editor *ETONIAN*, '32.

L. IRENE SCHRACK

Shoemakersville, Pa.

"You know I say just what I think and nothing more nor less." This is a fitting introduction for Laura Irene Schrack or "Dutchy," as she is known to her friends. For three years, Elizabethtown College has been the benefactor of Irene's industrious, efficient disposition, and it hopes to claim her for another year. To point out one specific field in which this young lady from Shoemakersville has majored would be quite confusing. English, she claims as her major and one of her chief interests; but, the Student Volunteer's and the Young Women's Christian Association know Irene as active Vice-President. Le Cercle Francais elected this same junior for secretary and the Debating Association followed suit. And, in addition to all of this, the *ETONIAN* holds her name on the Staff page as Associate Editor. It is difficult to realize that this small miss is able to accomplish so much, but any organization of which she is a part will nod with approval and satisfaction when Irene's name is mentioned.

No one has found any accurate proof of any "John Brown's" in Irene's life, but suspicion points to such a fact. Irene emphatically declares that her four goldfish are her only sentimental diversion. Any girl on the dormitory can verify all statements that these four fishes receive only the best of food and care.

Irene's ambition is to teach and carry on with her social and religious work. Everyone feels that she will be successful in both fields, for if she forgets her English language she is able to resort to her mother tongue, Pennsylvania Dutch.

Activities: La Cercle Francais, '30, '31, Secretary-Treasurer, '32; Debating, '31; Assistant Manager of Debating Association, '31, Secretary-Treasurer, '32; Student Council, '32; Sock and Buskin, '32; Volunteers, '30, '31, Vice-President, '32; Vice-President, Y. W. C. A., '32; Associate Editor of *ETONIAN*.

RAY SHERRICK

Middletown, Pa.

HERE is a man of abilities as well as likes and dislikes. His habits are in a class by themselves. Often we may find him seated calmly in a chair, notebook in hand—simply thinking, which to him means a quality of which the people are being robbed today. Aptitude for vicariousness is one of his outstanding pursuits. He aims to get the other person's viewpoint as well as project that of his own on the one from whom he receives.

His interests are primarily in business circles; we are, however, aware that Ray enjoys friendships among the fair sex.

Ray also has a curious aptitude in the field of public utilities. During the last several years he has served as bus driver, ferry-boatman, and the like, for the Middletown commuters.

The business world is waiting to receive a man of such business-like qualities to assist in putting "time and money" on a commercial basis.

It is needless to say that Ray will be very successful in his chosen field of activity, since he has put his heart and soul into his task.

Activities: Tennis, '32; Chorus, '30, '31, '32; ETONIAN Staff.

JOSEPH WILSON

Central City, Pa.

"YE Gods and little fishes!" This phraseology introduces our inimitable Joe to us. For over two years Joe lived on College Hill and became a friend to all. A versatile fellow with a keen sense of humor was he. A hearty laugh echoing through the dormitory could be recognized as Joe's, for there was only one laugh like that and he owned it.

This fellow proved that he had had varied experience before coming to Elizabethtown College. In sociology class, this wide range of experience proved advantageous. From the Ford factory in Detroit, from the mining districts of Central City, Joe gained his adventures.

History and social studies are this fellow's chief interests, while athletics, also, attract his attention. Baseball is Joe's major sport and basketball takes second place. In high school he was renowned for his football ability, but in college his ability was directed into other channels.

To enumerate the qualities of this young man would fill a volume, for Joe's big heartedness was known wherever he went and by all who knew him. Perseverance characterizes this fellow, subordinated by many other worthy actions.

All who knew Joe knew his "Chevy." Two or three friends, the "Chevy," and Joe, and a happy trio is described. Joe's "Chevy" had one aversion—freight trains—which was soon discovered.

Joe has left this campus to finish work elsewhere. We're sorry you left us—good wishes!

Activities: Basketball, '30, '31, '32; Baseball, '30, '31; Athletic Manager, '30; Secretary, Men's Student Association, '32; Science Club, '31, '32.

FRESHMEN CLASS

FRESHMAN CLASS

<i>President</i>	EARL KURTZ
<i>Vice-President</i>	RICHARD ALBRIGHT
<i>Secretary</i>	MILDRED LONGENECKER
<i>Treasurer</i>	HARRY SMITH
<i>Faculty Advisor</i>	DR. T. K. MUSICK

THIS is station E. C. announcing. You will hear the World News told you by Dr. T. K. Musick, head of the School of Business Administration at Elizabethtown College. He is both admirer and advisor of the Freshmen Class of 1932—Dr. Musick:

"Good evening, folks. The World News of this evening features the Elizabethtown College Class of 1932 as they have taken their respective places in the world. Their success and happiness but proves the old adage, "As the twig is bent, so is the tree inclined."

Earl "Watt's the name (?)" Kurtz, not content with being president of the Freshmen Class, 1931-32, is now republican nominee for President of the United States. We hope he will not run the political machinery as he ran his Pontiac.

Mildred W. Longenecker, former secretary of the class and now a soloist in the "little church around the corner" in New York, luckily escaped injury when the Oakland she was driving struck a "Henry Ford." Now who's Henry?

Harry Alexander Smith, that long suffering collector of class dues, is coach of lacrosse at John Carroll University. He spurs his team to victory with the same zeal with which he pursued the Freshmen's securely held pennies.

The football coach of Tulane University is Richard Harvard Albright, former vice-president of the class. Sport fans claim him to be the most successful coach in the history of the school.

Margaret J. Watts is assistant manager of the "Kurtzy" Gift Shoppe in New York. We wonder whom and what she manages.

The commander-in-chief of the Nationalist Army in China is Jacob-Shi-Wun-Long Hershman, whose motto is "When better wars are fought, China will fight them."

Bernice A. Keller has accepted the professorship of Latin at Wellesley College. May the ghost of Cicero and the shades of Caesar rise up to call her blessed!

Franklin "Kibosh" Cassel, dean and professor of German at Duke University, is giving the first extension course in Einstein's fourth dimension theory. "The yo-yo," he says, "is a classical proof of the theory."

"Modern Methods of Rural Teaching" by Dr. Cora D. Spangler is just off the press. Critics say that her understanding of the country boy in his rustic environment is remarkable.

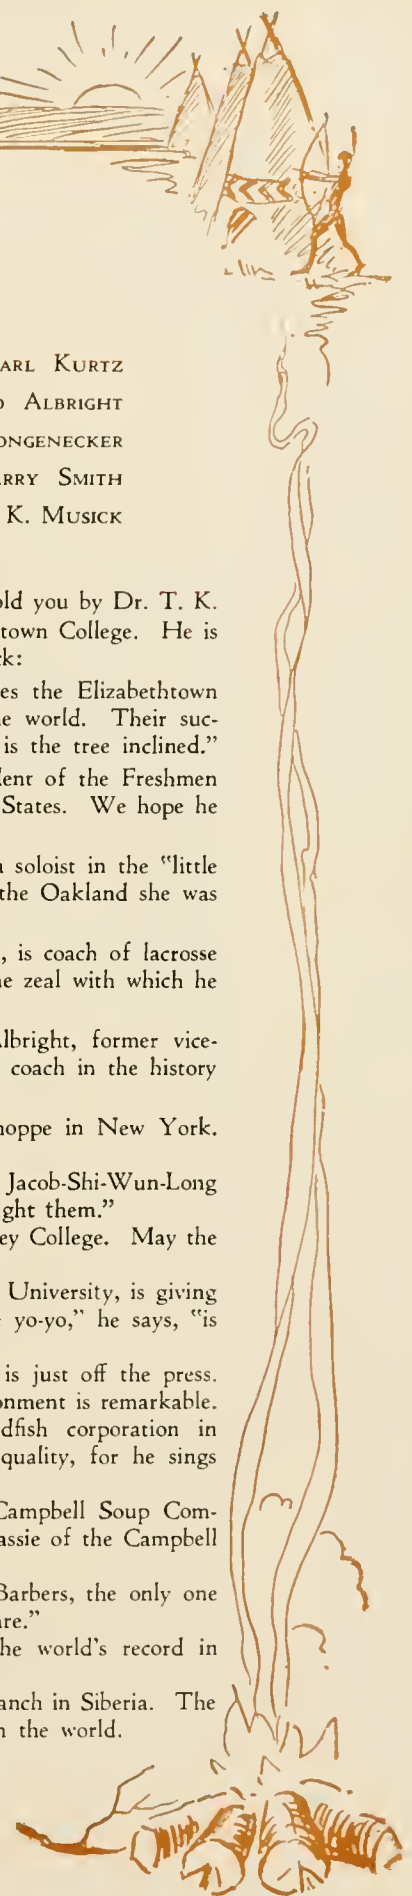

"Honest Abe" Stauffer Curry is president of the largest goldfish corporation in America—"Curry, Curry, Inc." His goldfish are of a very superior quality, for he sings them to sleep with "Berceuse" from Jocelyn.

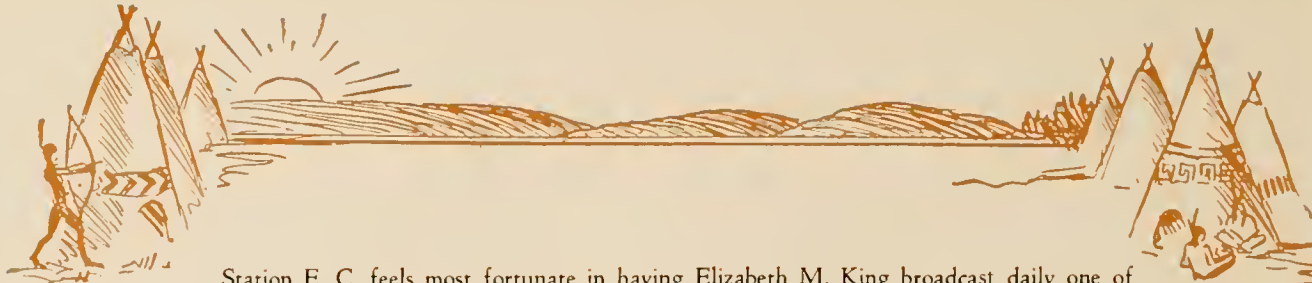

Lorraine Jamieson has recently been appointed secretary of the Campbell Soup Company, in Camden, N. J., because she so closely resembles the roly-poly lassie of the Campbell ads.

Jacob "Haircut" Enders is president of the American School of Barbers, the only one of its kind with its motto, "Let no grass grow upon a busy thoroughfare."

Naomi S. Livingood has been awarded a medal for breaking the world's record in typing. Her only error was a comma blunder—25¢ off, please.

John Eli Good is at home with Mrs. Good on his father's monkey ranch in Siberia. The World Almanac reports him to be doing the best "monkey business" in the world.

Station E. C. feels most fortunate in having Elizabeth M. King broadcast daily one of her beautiful pipe organ selections. Her technique and skill have won for her praise and applause.

Elwood "Phlegmatic" Hackman, a second Lindy, flew from pole to pole without refueling. "The trip", he said, "was slightly cool at both ends."

The professor of Economics at Temple University, Ruth E. Moyer, reports that education works upon the law of diminishing returns—the more you study, the less you know.

Guy "Neuritis" Hoffmaster of York, Pa., is the all-American selection for football tackle this year. At present he is captain of Elizabethtown's checker team.

A second Edison has come forth in the person of Mary Wolgemuth. Her gift to humanity is a pencil which writes the correct answer to all examination questions. May her genius not go unrewarded!

Paul "Simonize" Lentz has accepted the professorship of English at the University of Berlin. Comment runs that he has translated the "dangling participle" into twenty-five dialects, twenty-four of them being Pennsylvania Dutch.

Anna G. King holds the position of Home Economics professor of Penn State. Her recent research into the utilization of burned potatoes has proved most helpful to young brides.

Russell Adam Wentz is the new Secretary of the Navy. The papers say he is now determining the percentage of salt in the Atlantic Ocean.

A very lovely wedding was solemnized when Frances Trombino became the bride of the Governor of Illinois. This is said to be the first time the state has been governed by a woman.

The makers of Steinway Pianos have recently awarded a medal to Frazier M. Grapes for rendering the first classical interpretation of "Three Blind Mice".

Lawrence Monroe Nedrow is governor-elect of his native state, New York. His platform contains logs against motorists driving in safety zones.

The Harrisburg Business Woman's Club was entertained by the well-known elocutionist, Beulah M. Gibble. Newspapers commented upon the expression with which she rendered "Little Jack Horner".

Clyde "Louella" Nissley has been chosen winner of the Nobel prize in literature. His book entitled "Wine, Women, and Sauerkraut" has gained universal attention.

Mary A. Frantz is hailed as champion of the Olympic games. This skillful young lady broke records and broke right and left.

Camp Vail, the outstanding 4-H Club Camp in Massachusetts, has just finished a most successful season under the enthusiastic leadership of Vivian N. Eby. "Head, hands, heart, and health," she says, "if a fine motto."

Arthur "Chlorine" Spickler, chief chemist at the University of Heidelberg, has discovered a compound so powerful that it makes grass grow on hitching posts to accommodate the horses tied there. Gasoline for autos would be more modern!

The Music Lovers' Association of New York has given a most enthusiastic welcome to Anna M. Eberly, the noted "ukeist". Her rendition of "Lucky Day" has placed her among the artists.

Leroy "Leviticus" Metzler passed through a deluge of "bouquets and brickbats" while singing the Austrian national anthem in a Viennese theater. At present he is recuperating in his hotel.

Radio audiences are thrilled with their new idol, Dorothy M. Dulebohn, who sings lullabies nightly. It is said that even static flies when she "croons her evening song."

Rev. Eby Alpericus Espenshade was seriously hurt but not fatally injured in a duel in Siam where he is waging war against woman suffrage and the Mopsical mosquito.

Katherine K. Cassel has been chosen teacher of mathematics at Hood College. She is endeavoring to obtain her doctor's degree by proving that $1 + 1 = 3$.

Mary V. Brumbaugh has been awarded the John Smith memorial prize in art. Her masterpiece, "The Soul of a Mocking Bird", follows the modernistic trend and consists of two dots, three dashes, and one and a half curves.

Anna P. Blough, professor of Latin at Purdue University, claims that sufficient evidence has been unearthed to prove that Latin is not a dead language. Nothing which was dead could keep so many people out of bed the night before exams.

Frank Vergot Luxel, formerly an amateur auctioneer and butcher, has abandoned his own enterprises, and is now selling goldfish to starving Eskimos in the truly "Mencker fashion" for "Curry, Curry, Inc."

Italy is at last bowing before the onslaught of woman suffrage as led by Naomi C. Baugher. So great is her prestige in Italy that the town of Tillavillabe has claimed her for its patron saint.

The field of aviation hails with delight its new holder of the endurance record, Helen R. Balsbach. Helen claims that she got the courage to "carry on" from watching Dr. Palmer's yellow cat trying to catch a field mouse.

Palm Beach is indeed fortunate in having upon its shore a salted peanut factory. According to economics it is a "holding company" in which John Bomgardner holds the peanut bag while Mary Engle shells the peanuts into a dish held by Franklin Spickler. The peanuts are then held in a salt solution by Darwin Ramek, while Richard Walters manages the selling end and holds the purse strings.

Norman Judas Becker, professor of Child Psychology at the University of Bermuda, has recently startled the world with the amazing statement that 50% of the married folks are women.

Arthur Zerubabel Risser has just been appointed manager of the Hemp Stock Farms, Fiddler's Elbow, Pa. The diplomas made from the skins of his sheep are the best in Pennsylvania.

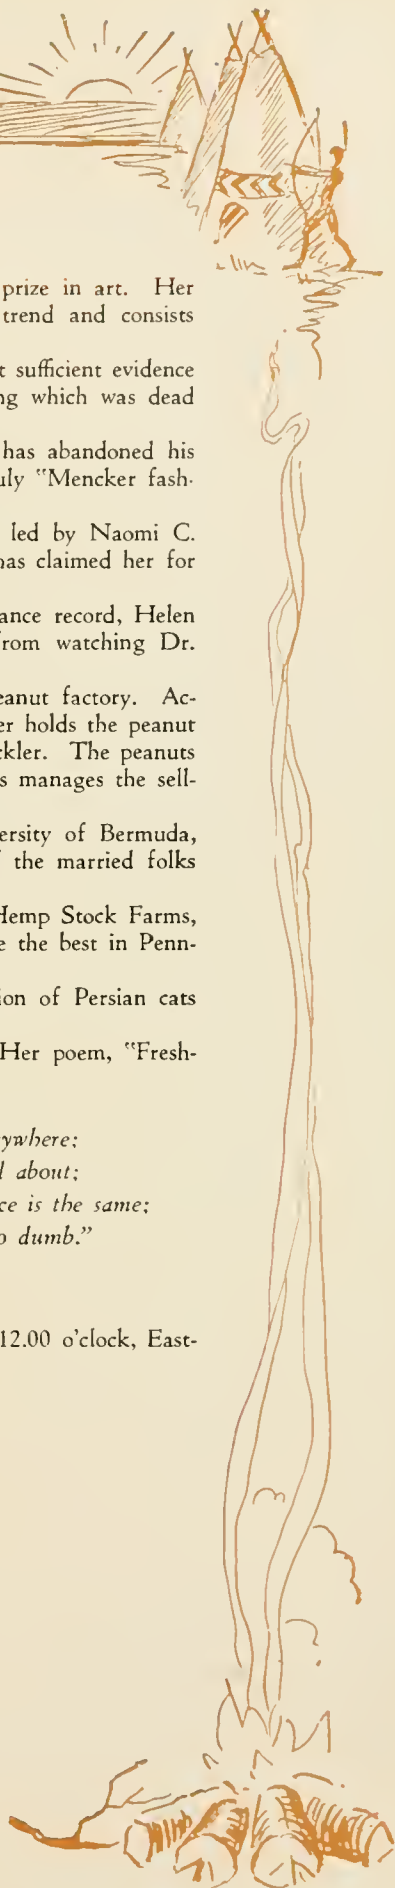

Emilie Jane Kraybill, war nurse to Persia, reports that the population of Persian cats is on the decline due to the importation of better cats at lower prices.

J. Elizabeth Axe is hailed as America's most outstanding poetess. Her poem, "Freshman", has excited considerable comment:

*"Freshmen here, Freshmen there; you'll find the Freshmen everywhere;
A whispered call, a mighty shout—there are Freshies, Freshies all about;
They get some praise, they get some blame—to them the difference is the same;
But if you go, or if you come, you'll find the Freshmen aren't so dumb."*

Thank you!

This is Station E. T. C. signing off. In just one minute it will be 12.00 o'clock, Eastern Standard Time, March 25, 1945.

Y. W. C. A.

THE Y. W. C. A. is a real, live organization, joining heartily in any project for the general welfare of the student body, and paying particular attention to the happiness of the girls.

In the beginning of the year the "Y" tried to make each new girl feel at home by placing in her room a vase of flowers. Then, too, each freshman girl was provided with a Big Sister, who acquainted her with the other students and took particular care of her the first few days of school.

Another new idea which the Y. W. practiced very successfully was the "Capsule Friend" plan. Each member of the "Y" had some girl as her special friend, her "Capsule Friend", for whom she did any little nice thing of which she could think.

The Y. W. C. A. has become quite famous through its "teas." At first these were exclusively for the girls, but later they were made Co-ed affairs.

This year, more than in previous years, this organization represents a very large percentage of the girls on College Hill. A special effort was made to interest the Dav-student girls in the "Y" activities. This, in addition to bringing about a closer band of fellowship, increased our membership considerably.

The Y. W. C. A. has not forgotten the purposes for which it was organized. In all their activities they have tried to live up to the ideals, and teachings of the Christ.

Y. M. C. A.

AS THE years come and go, men find new and better ways of service. This seems to be particularly true of the work of the Y. M. C. A. Last year it was felt that the organization had effected a fine piece of work by renovating the shabby "Y" room and making it an attractive, home-like place. The incoming Cabinet felt, as the president stated in his inaugural address, that a mighty challenge was facing them. Now this year, too, has passed, and the challenge has been successfully met.

The activities of the "Y" run into many fields of service. In collaboration with the Y. W. C. A., it has published the "Student's Handbook", has fostered the "Big Brother Plan", and has sponsored several home talent productions in lieu of the customary Lyceum Course. These number included the Alumni Quartet and the recital by Mrs. Fred Klein.

The program committee is featuring "a meeting a month" plan. Under this plan outside speakers are called in to address the fellows, socials or hikes are sponsored, and public programs are rendered.

The organization has budgeted several hundred dollars toward the purchasing of pews for the college chapel—a most fitting memorial to the "Y's" policy of service.

The biggest feature of the year was the coming of the annual Fall Student-Faculty "Y" Conference to the local campus.

THE purpose of the Student Volunteers is four-fold:

1. To provide adequate missionary education.
2. To challenge the choice of vocation in accordance with God's purpose and will.
3. To recruit students for missions.
4. To provide elementary experience in missionary work.

Bi-weekly programs and deputation work in the surrounding congregations are developing a corps of church-workers for the future who will take an interest in the first great work of the church—Missions.

The outstanding event of the year was the Eleventh Quadrennial Convention held at Buffalo, N. Y. Among the 2200 delegates from the United States and Canada, three were from Elizabethtown College—Martha Martin, Etta Davis, and Ray Kurtz. Those present considered it the high peak in their college career. The speakers included Dr. Robert E. Speer, Dr. John R. Mott, Dr. T. Z. Koo, Dr. Walter Judd, and Dr. Jabavu.

The organization has undertaken a project to help support the work of Desmond and Irene Frantz Bittinger on the African mission field and has secured the cooperation of the students in this project.

<i>Secretary-Treasurer</i>	HARRY GERLACH
<i>Faculty Advisor</i>	PROF. G. S. SHORTESS

THE Science Club has this year, the second year of its existence, become a rather active organization on the Hill. Regular monthly meetings are held in the Science Hall. Early in January a public program was presented of motion pictures of a scientific nature. A similar program was given the latter part of April.

Other activities which center in the organization itself are: the testing of milk brought in by the farmers, the banding of birds, and the explanation of various scientific topics of interest during the regular club meetings.

A canvas for membership was made during the early part of the year. Efforts are being made to establish a chapter of a National Honorary Fraternity, which would foster scientific interest and investigation.

By next year the club expects to be one of the most active and worthwhile organizations on the Hill.

THE CANDLES

President	EZRA BUCHER
Secretary-Treasurer	AMMON GIBBLE
Faculty Advisor	PRES. R. W. SCHLOSSER

THE Candles, a unique organization on the Hill, was originated by a group of fellows several years ago for the purpose of preserving the friendly group feeling after leaving college. Since then the idea has changed. More members were added and a more permanent organization was desired. In 1930 the faculty recognized the Club as an honorary society. At present the members are chosen from the leaders in the various fields of study and extra-curricular activity. Monthly meetings are held during the school year.

This year, under the leadership of Ezra Bucher, the organization has become quite alert to its obligations as an honorary society. It has pledged itself to pay for the painting placed in the rear of the chapel. To this end a short play was rendered and the alumni members solicited to make their contribution.

To arouse a school spirit among the student body the Candles organized a basketball squad and played several class teams.

Each spring all the members, both student and alumni, with their friends or wives, gather at a banquet to review old friendships.

The Candles stand for leadership, sportsmanship, and friendship. Its members are themselves examples of the Club's ideals. They aim to be representatives of the true E-town.

LE CERCLE FRANCAIS

President..... LYDIA WAGNER
Secretary-Treasurer..... L. IRENE SCHRACK
Faculty Advisor..... PROF. G. R. SAYLOR

THE school year 1929-1930 marked the launching-out of Le Cercle Francais of Elizabeth-town College. Due to the fact that the Literary Society was abandoned and the formation of Clubs was advocated, the members of the more advanced French classes, spurred by the enthusiasm of "learning more," worked together and, under the active leadership of Prof. G. R. Saylor, formed Le Cercle Francais, the first club on College Hill. The pioneer officers of the club were: President, Evelyn Bell (Saylor); Secretary, Anna Mae Bishop. In the spring of 1930, a public program was presented, which proved to be a real success.

Beginning with the fall term of 1930, the club was continued, holding monthly meetings regularly. The officers for 1930-1931, were: President, Margaret Schaefer; Secretary, Helen Landis. Encouraged by the success of the previous years, the club again presented a public program.

In the fall of 1931-1932, Le Cercle Francais was again organized. Efforts were made to make the monthly meetings more interesting and informative than in former years. The public program for this year, given April 6, 1932, was:

1. Piano Solo—"Meditation-Thais"—Massenet, by Lydia Wagner.
2. Play—"J'invite le Colonel"—Labiche, characters of which are:

Margaret Schaefer	Kenneth Senior
Anna Reese	Ray Cobaugh
	Frank Luxl
3. Violin Duet by Eleanor Walborn and Helen Heisey.
4. Vocal solo by Dorothy Dulebohn.
5. Reading—Le Judgement de Solomon, by Irene Schrack.
6. Piano Solo—"Berceuse" from "Jocelyn"—Golard, by Anna Eberly.

It is the aim of Le Cercle Francais to be both instructive and entertaining, in relation to the language and the country.

STUDENT - FACULTY Y. M. C. A. CONFERENCE

December 4, 5, 6

ONE of the outstanding events of the current school year was the Student-Faculty "Y" Conference held on the local campus during the first week in December. It was both a challenge and a privilege: A challenge for us to prove the worth of our school, and a privilege to entertain the guests from other colleges. From many angles we are warranted in calling it successful. The college has served as a host to its neighbors; the students and faculty have answered to the challenge presented them; Elizabethtown College has lived up to its past reputation. All has rung true to the theme of the Conference—"Making Jesus Christ a Vital Experience."

The Conference opened on Friday, December 4, and continued until Sunday morning, December 6. It proved to be one of the best ever held in this district. There was a total of 154 delegates—student and faculty members—present at one or all of the sessions. Eighteen colleges of the middle section of Pennsylvania were represented, of which twelve were church schools and six teacher's colleges.

The program for the Conference consisted of addresses, group discussions, general discussions, and devotional periods. Every one present found something of interest and value.

The faculty banquet was a splendid start for the Conference. President Schlosser was host to the faculty delegates at the Kennewood Hotel. At the same time the student representatives convened in Christ Reformed Church, where the first social sessions were held.

The speakers included outstanding men from Pennsylvania and New York. Dr. Peter K. Emmons, pastor of the Westminster Presbyterian Church at Scranton, Pa., will be remembered for his clear, forceful approach to his subject. Jesse Wilson, General Secretary of the Student Volunteer Movement of North America, spoke from a rich experience in world affairs and present needs. Dr. Edward Harmin of the Lancaster Reformed Theological Seminary led the Conference to see the spiritual rather than the theological Christ. President Schlosser delivered the closing address in his usual capable manner.

On Saturday afternoon the Y. W. C. A. sponsored a tea for the delegates in the reception room. Mrs. Palmer and Mrs. Meyer were the hostesses. The short social hour was a change from the Conference sessions.

Significant Conference Statements

"I would be afraid *not* to follow Christ."—Dr. Emmons.

"We make Christianity a religion of ease and safety instead of one of eternal life."—Dr. Harmin.

"The way of Love will win."—Jesse Wilson.

"To understand life better one must know God better."—Pres. Schlosser.

ANNUAL "Y" ORATORICAL CONTEST

THIS year the "Y" oratorical contest, which was held Friday, March 18, was a part of the George Washington Bicentennial Celebration. Each oration centered about some phase of Washington's life. The following orations were given:

George Washington, the Courageous	John Moseman
George Washington, the Exemplar of American Ideals	Richard Heistand
George Washington, the Exemplar of American Ideals	Ann Cassel
George Washington, the Courageous	Lydia Wagner
George Washington, a World Figure	James Nedrow
The Spirit of Washington	Ray Cobaugh
George Washington, the Man of Business	Ezra Bucher

The first prize of \$10 was awarded John Moseman, the second prize of \$5 to Ezra Bucher, and honorable mention to James Nedrow.

ANNUAL BIBLE INSTITUTE

THE 32nd Annual Bible Institute marked the peak in the inspirational life of this school year. It convened during the week of January 24 to 31, and brought to our campus several well-known church leaders.

Dr. Edward Frantz, Editor of the Gospel Messenger, struck the prophetic note of the Institute when he lectured daily on "Biblical Prophets in the Life of Our Day." He also, in his characteristic way, devoted another hour each day to a sympathetic analysis of the problems of modern youth.

The problem of the status of Religious Education both locally and of the church as a whole, was ably and adequately made a part of the Institute program by Eld. Rufus D. Bowman. Eld. Bowman is the Director of Religious Education of the Church of the Brethren and was in a position to intelligently discuss the problems relating to that field and also to offer a constructive program.

Dr. D. W. Kurtz, present pastor of the Church of the Brethren in Long Beach, Cal., president-elect of Bethany Biblical Seminary, and a well-known lecturer, completely captivated the interest of the entire student body. He devoted one hour daily to the study of the Parables of Jesus, and each evening he delivered one of his lectures for which he is so well known. The auditorium-gymnasium was filled to the limit of its capacity for each one of these evening lectures. In these lectures Dr. Kurtz touched on the most vital questions of all people, young and old, and the nation as a whole. His masterful, scholarly lectures will continue to challenge, for they will not be forgotten.

The Institute program also included addresses by several members of our faculty and others indirectly connected with our school.

It proved undoubtedly to be the most challenging Institute conducted on our campus.

MELICENT QUARTET

THE personnel of the Melicent Quartet was slightly changed this year. Shortly after reorganization the quartet set about to work on two programs. The one was a sacred program whose theme centered around the Life of Christ. In words and harmony the various songs tried to portray the nativity, the life and character, the suffering and death, the resurrection, the joy of salvation, and the fellowship and service of Jesus.

The other program consisted of secular music. The following divisions are typical of the repertoire—evening songs, folk songs, operatic airs, children's songs, good-night songs. Although the entire secular program never was given, the quartet used the various groups of these songs and rendered their services to high schools and numerous clubs in the adjacent counties.

This group was also the happy recipient of many invitations to sing in the churches in the adjoining towns and community. During the Bible Institute and the Y. M. C. A. Conference on the College Campus, this quartet rendered several selections. In the harmonizing of musical songs and the expression of beautiful thoughts the quartet has rendered a helpful and enjoyable piece of work.

Left to Right—LeRoy Metzler, John Kipp, Stauffen Curry, William Richwine.

THE MALE QUARTET

"What do you say, fellows? Let's 'strike up' our vocal cords and give the folks some good close harmony. T-I-M-E!! Certainly it takes time. Rome wasn't built in a day! It means a price, fellows, and we can pay it! What do you say we buckle down to it and put this so-called Male Quartet across?"

There was the challenge and here is the response, "O.K. Let's Go!"

Truly it was a challenge, for it meant a fight from the beginning to the end. It was a fight with that old gray-haired gentleman called T-I-M-E. But the fellows conquered and here they are bubbling over with enthusiasm and that keen feeling of satisfaction one can justly claim as the victor of a race.

The clever manner in which the fellows presented their secular programs proved interesting and entertaining to all of those who witnessed them. Throughout the winter months the quartet was featured at spelling bees and various clubs and association gatherings in Elizabethtown and vicinity.

The gospel message which was presented in the churches of the Eastern District received much commendation. During the past few months they have been active in presenting this sort of program. They have appeared as a special feature on programs during the Christmas and Lenten seasons. The type of hymns selected and the manner of presentation is a culmination of many hours of carefully directed and concentrated effort.

The success of the fellows can only be attributed to the interest of their director, Prof. E. G. Meyer, who has led the quartet to an attainment worthy of recognition.

ORCHESTRA

THE CANTATAS

Director E. G. MEYER

Pianist MRS. E. G. MEYER

THE Legend of Don Munio, a secular cantata, words and music written by Dudley Buck, is a versification made from the "Spanish Papers" of Washington Irving. This cantata, a scene of which is shown above, was presented last spring by the Ladies' and Men's Glee Clubs.

This year the mixed chorus composed of forty voices found great pleasure in singing three great classics in music.

On Founders' Day the chorus sang Beethovens' "Hallelujah" from "The Mount of Olives"; and repeated it during the Bible Institute in January.

In order to catch and spread the Christmas spirit the chorus sang, "The Coming of the King," by Dudley Buck, on December 16.

On May 13, the chorus interpreted their song and dramatization on a public program, the excellent romantic cantata, "The Golden Legend," by one of England's greatest composers, Arthur Sullivan.

It is through becoming acquainted with the best in music that our appreciation deepens.

SOCK AND BUSKIN

<i>President</i>	E. FLOY SCHLOSSER
<i>Secretary-Treasurer</i>	MARGARET SCHAEFER
<i>Director and Coach</i>	MISS REBEKAH SHEAFFER

THE Dramatic Club, although a comparatively new organization, has been decidedly active this year. The season opened with an unusual treat, in that they were privileged to see America's greatest actor, Walter Hampden, play in Barry's well-known "Admirable Creighton." At this time the new members made their initial debut into the Club's activities. Early in February the entire Club was again privileged to see Walter Hampden, this time in Rostands' inimitable "Cyrano de Bergerac," played in Philadelphia. In October the new club members were formally initiated in a vivid and memorable way, each making solemn vows and promises. This initiation took form in a Hallowe'en party given by the president at her home.

The remainder of the semester found every club member actively engaged in the preparation of one-act plays. These were given on numerous occasions before the Business and Professional Women's Club, the Rotary Club, and the Lancaster County Alumni Club.

Under the direction of our coach, together with the children of the public schools in town, the Club presented "Living Pages from Washington's Diary"—a pageant in commemoration of George Washington.

The unusual and unexpected in dramatics, yet always artistic, were present in all the productions of the Sock and Buskin. Excellent acting, new lighting effects, and stage settings always different, increased the interest and enthusiasm of the followers of comedy and drama on the campus and in the town. The season closed with the presentation of the delightful and clever comedy—"Let Us Be Gay"—which was given before a large and appreciative audience.

VARSIITY BASKETBALL SQUAD

VARSITY BASKETBALL

1931 - 32

THE Men's Varsity basketball squad closed the season Friday night, February 26, after having played 13 hard fought games. Although slightly handicapped by the inability of several players to finish the entire season, they won three games, and lost three by a margin of only seven points.

The fellows are to be congratulated upon their splendid playing and spirit manifested throughout the year. Although the squad was smaller at the end of the season by far, than when we started out, the boys that played to the end and in spite of other conditions deserve much praise from the student body.

It was through the loyal efforts of Shipley, Lauer, Shields, Good, Gerlach, Hershman and Heisey that the colors of blue and white were kept ever waving in the breeze.

Taking the year as a whole, the results were more gratifying than those of last year. Because of the short time that Elizabethtown has been in the field of intercollegiate sports and the many schools of larger size that she plays, we should feel that we have as good a team as any in the State. We do know that we have the spirit—so better luck for next year!

The ranks will suffer the loss of Lauer and Shipley, but, with the promising athletes coming on, we hope to be able to fill these vacancies satisfactorily.

GIRLS' BASKETBALL

NOVEMBER and basketball practice—what a thrill to every girl who enjoys the keen competition which basketball affords! A fair representation of girls reported to Coach Mateer's first call to practice. Captain Weaver was the only varsity member of last year to report. The Coach had to break in practically an entire new squad.

After a number of hard practices the following squad was chosen: Centers, Captain Weaver, who also played guard, and M. Brumbaugh; Forwards, M. Frantz, R. Diffenbaugh, and A. King; Guards, M. Engle, A. Breidenstine, and D. Cable; Side Centers, D. Dulebohn and A. Cassel.

WITH two of last year's team back and several new candidates, it looks as though the Elizabethtown Racketeers have an excellent chance of making a splendid showing this year. The two men of last year's varsity are Kaylor and Laurer. VARSITY BASEBALL SQUAD

BASEBALL

ALTHOUGH the weather has been rather unfavorable for spring practice, the squad has been getting in tune through workouts in the gym. Since much new material will make up the team this year, it is very difficult to prophesy as to the outcome of the season. The team has within the last week showed marked improvement and causes the outlook for the season to be very hopeful.

Those who will be found in their places of last year will be Kehm, at shortstop; Shipley, behind the bat, and with part time on the mound, and Shields, in left field. Good will change off with Shipley on the mound while Fisher will catch with Lauer at first base. Shipley and Shields are co-captains this year. The other candidates are: Houser, Risser, Espenshade, Cobaugh, and Luxel.

A. Meyer: "Henry and Julia aren't going together any more."
Gibble: "Why?"
A. Meyer: "Because, on each of her birthdays he bought a bouquet of roses, a rose for each year. Well, last year he bought the roses from a friend, who threw in an extra dozen for good luck."

/ / /

FORESIGHT

Davis: "Oh! It's only twelve days until Christmas!"
Smack: "Why worry about the future?"
Davis: "I'm worrying about the presents."

/ / /

A pull may not get you on a football team, but it certainly helps a lot when you're trying for the varsity crew.

/ / /

Prof. Shortess: "How can you do your bit to save the forests?"
Good: "Shoot the woodpeckers."

/ / /

WILLINGLY ENOUGH

R. Kurtz: "You should see the altar in the church!"
Van Ormer: "Lead me to it."

THE ALUMNI

ELIZABETHTOWN College may feel proud of her Alumni. They have gone into all fields of endeavor. As teachers, ministers, missionaries, business men and students, they have helped carry forward the standard of Elizabethtown College and her ideals.

It is not alone as students and graduates that they have helped their Alma Mater, but their contributions and gifts have ever kept alive the interest which they feel for Elizabethtown College.

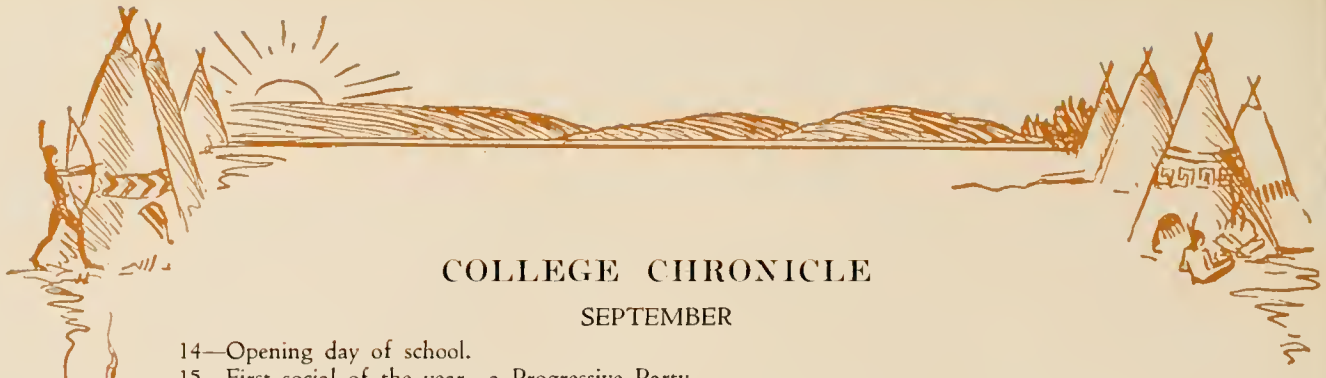

Through their efforts the campus and college has been made more beautiful and efficient. When the need for an athletic field was sorely felt the Alumni met the need. This field has enabled the College to go into the field of intrcollegiate athletics in a worthwhile manner.

A need for a Gymnasium had long been felt. Today, the Alumni Gymnasium, one of the finest in the State, stands as a fitting memorial to our Alumni and their efforts.

Our campus, ever beautiful, was made more beautiful several years ago, with the creating of Lake Placida—one more valuable contribution of an Alumni to an ever grateful College.

A college lives through her Alumni. May Elizabethtown College ever produce Alumni that will carry on the work so nobly begun!

COLLEGE CHRONICLE

SEPTEMBER

- 14—Opening day of school.
- 15—First social of the year—a Progressive Party.
- 16—Annual Get-Acquainted Social in the Gym. Some of the professors apparently saw proof for their belief in the evolution theory.
- 17—Kehm walks into wrong classroom and suddenly becomes a Bible student.
- 18—Johnny Wezmar demonstrated how he would sell frigidaire to Eskimos while eating lunch.
- 19—Lake Placida overflows as a watermelon party camps on its banks.
- 20—Everybody attended church.
- 21—Freshmen regulations became effective.
- 22—Junior Class organized with the re-election of Earl Baugher as president.
- 23—Vesper service held by Volunteers. Dining room seating arranged.
- 25—Psychology students turn in "syncopated" articles.
- 28—Sock and Buskin tryouts were held.
- 29—Juniors assemble in form of class meeting for the purpose of deciding upon the publishing of the *ETONIAN*.

OCTOBER

RECIPE FOR WRITING A BOOK

2 oz. talent.

Common sense, the size of an egg.

1 oz. knowledge of human nature.

Put all ingredients in mortar of experience and pound with pestle of discretion.

Add 1 pint of sentiment, 1 gill of wit and just a shake of sadness.

Strain 6 months later and destroy sediment.

Season and garnish. Serve immediately.

If it is liked, it will be eaten at once. If the dish is returned untasted, remove from the menu.

OUR ETONIAN ECHO

Our work is finished. We hope that it has not been in vain. It has been our sincere effort to incorporate in this Etonian the pleasant activities and events of this school year. If we have succeeded in this we feel that we have, in a measure, contributed to the pleasant memories that will be held by each student in the years to come.
